### **DETAILED ACTION**

This office action is in response to the proposed amendment filed June 16, 2010.

#### ***Response to Amendment***

The proposed amendment filed June 16, 2010 places the application in condition for allowance, therefore the proposed amendment has been entered.

#### ***Allowable Subject Matter***

Claims 1-10, 13 and 16-18 are allowed.

The following is an examiner's statement of reasons for allowance:

The primary reasons for the allowance of claim 10 were stated in the office action mailed August 20, 2009.

The primary reasons for the allowance of claims 1-9 and 16-18 is the inclusion therein, in combination as currently claimed, of the limitations of coating a transparent conductive substrate with a paste containing semiconductor fine grain and polymer binder, sintering the paste at a temperature of 400-500°C and irradiating the semiconductor layer with UV rays for 4-70 hours to remove some organic substances. These limitations were found in claims 1-9 and 16-18 and are neither disclosed nor taught by the prior art of record, alone or in combination.

The primary reasons for the allowance of claim 13 is the inclusion therein, in combination as currently claimed, of the limitations of coating a substrate with a paste containing semiconductor fine grain and polymer binder, sintering the paste at a temperature of 400-500°C and irradiating the semiconductor layer with UV rays for 4-70 hours to remove some organic

Art Unit: 2822

substances. These limitations were found in claim 13 and are neither disclosed nor taught by the prior art of record, alone or in combination.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
